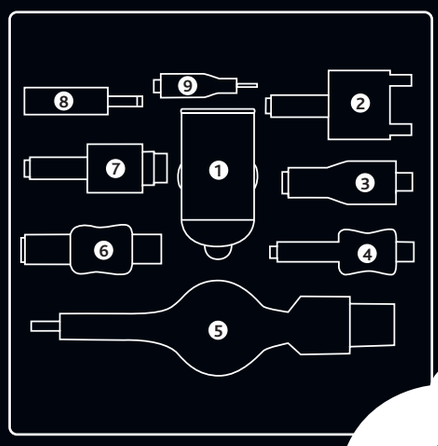
powertraveller

motormonkey

...charge ahead in style

In-car chargers have never looked so good...

- world's smallest in-car charger
- big on power
- charge your mobile, iPhone, iPod, PSP or BlackBerry
- leave plugged in without draining car battery
- auto shut technology prevents overcharging



Each kit contains:

- motormonkey (1)
- Storage box
- Samsung M300/G600 tip (6)
- Nokia & Mini Nokia tip (6)
- Micro USB (3)
- USB retractable cable (5)
- Mini USB for Motorola Razr, BlackBerry, Sat Navs and other USB powered devices (4)
- Sony Ericsson K750i wide connector (2)
- DC 4.0 connector for PSP (8)
- LG chocolate connector (7)

Introducing one powerful piece of in-car kit. The most compact (and stylish!) in-car charger in the world, motormonkey packs the power to keep your phone connected and your music motoring on even the longest car journey.

motormonkey's inbuilt charging intelligence means you can leave it permanently in your car's cigarette lighter socket (and even close the flap to keep things really neat) without fear of draining your car battery. motormonkey wakes up when you plug in your mobile, iPod, iPhone, BlackBerry or PSP and auto shuts when your device is fully charged.

- Compact and light – unobtrusive in your car
- Compatible with most mobile phones (including Nokia, LG, Samsung, Sony Ericsson and Motorola), Sony PSP and BlackBerry
- Red LED light switches on when charging
- Auto-off when your device is fully charged
- Sleek stainless steel unit
- Works in 12V/24V sockets to deliver 5V output

Powertraveller is proud to be supporting the David Shepherd Wildlife Foundation - saving critically endangered mammals in the wild.
